GUERRILLA GIRLS ON TOUR!

WWW.GGONTOUR.COM

GUERRILLA GIRLS ON TOUR! is the only touring company in the United States creating theatre that takes a hilarious look at the current state of women in the arts and beyond. Guerrilla Girls On Tour!'s plays and performances mix a variety of comedic techniques such as parody, sketch, improv, slapstick and song-and-dance resulting in a distinct feminist theatre style. We make theatre that is interactive, involving our audiences in writing assignments, sing-a-longs and audience participation, which allows us to theatrically address issues like pay equity, body image, reproductive rights and herstory/history/hirstory while engaging the audience at the same time. Guerrilla Girls On Tour! aims to educate, entertain and ultimately transform our audiences into identifying as activist/artists. In addition to creating new plays and performances we focus on leading workshops and master classes in using the art of theatre to address local concerns.

FEMINISTS ARE FUNNY

MOTIVATE: Our signature in-your-face performance includes up-to-the-minute commentary on hot political topics, breaking news in women's issues and a romp through our famous posters, street theatre actions, and worldwide tours.

IF YOU CAN STAND THE HEAT: THE HISTORY OF WOMEN AND FOOD

EMPOWER: Our newest comedy bites into women's anxiety around food and the body via a handful of lady culinary heroines who have contributed to the menus of our daily lives. A hilarious, flour-dusted, theatrically surprising stage conversation meant to dissolve fears of food and encourage freedom of the fork.

SILENCE IS VIOLENCE

CHANGE: Our classic dramatization for young woman covers date/acquaintance rape; domestic violence and bystander intervention. Local and statewide statistics are incorporated into each performance making each one site-specific.

"AMAZING! OUR STUDENTS IN THE GGOT WORKSHOP WENT FROM TALKING ABOUT GENDER JUSTICE TO POLITICAL ACTION IN LESS THAN 3 HOURS. VIVA GUERRILLA GIRLS ON TOUR!"
